

Table of Contents

Foreword by D. Pimentel	ix
Preface	xi
Part I - Invasion of <i>Piper aduncum</i> in Papua New Guinea	
1. Bioinvasion and <i>Piper aduncum</i>	
1.1. Bioinvasion	3
1.2. Papua New Guinea	3
1.3. <i>Piper aduncum</i> globally	5
1.4. <i>Piper aduncum</i> in south east Asia	7
1.5. <i>Piper aduncum</i> in the Pacific	9
1.6. <i>Piper aduncum</i> in Papua New Guinea	10
1.7. <i>Piper aduncum</i> in the shifting cultivation systems	14
1.8 Summary and conclusions	16
References	16
2. Soil seed banks and growth rates	
Abstract	21
2.1. Introduction	21
2.2. Methods	22
2.3. Results	24
2.4. Discussion	27
References	29
Part II - Biomass and nutrient characteristics of <i>Piper aduncum</i>	
3. Biomass and nutrient accumulation	
Abstract	33
3.1. Introduction	33
3.2. Methods	36
3.3. Results	39
3.4. Discussion	46
3.5. Conclusions	49
References	49

4. Nutrient stocks of short-term fallows	
Abstract	55
4.1. Introduction	55
4.2. Methods	57
4.3. Results	59
4.4. Discussion	65
References	59
5 Leaf litter decomposition	
Abstract	73
5.1. Introduction	73
5.2. Methods	75
5.3. Results	79
5.4. Discussion	84
References	87

Part III - Nutrient management and sweet potato

6. Nutrient deficiencies of agricultural crops	
Abstract	93
6.1. Introduction	93
6.2. Data collection	96
6.3. Agricultural crops of Papua New Guinea	98
6.4. Nutrient deficiency – literature	100
6.5. Nutrient deficiency – field observations	105
6.6. Nutrient deficiency – GIS databases	107
6.7. Discussion	108
Acknowledgements	112
References	112
7. Yield decline of sweet potato	
Abstract	117
7.1. Introduction	117
7.2. Methods	119
7.3. Results	123
7.4. Discussion	129
References	132

8. Nitrogen Use Efficiency of taro and sweet potato	
Abstract	135
8.1. Introduction	135
8.2. Methods	137
8.3. Results	140
8.4. Discussion	144
8.5. Conclusions	145
References	146
9. Sweet potato yield and nutrient dynamics	
Abstract	149
9.1. Introduction	149
9.2. Methods	151
9.3. Results	155
9.4. Discussion	164
9.5. Conclusions	168
References	169
10. Integrated nutrient management with sweet potato	
Abstract	173
10.1. Introduction	173
10.2. Environmental conditions at the experimental site	174
10.3. Experiments with natural and improved fallows	175
10.4. Inorganic fertiliser experiments	179
10.5. Poultry litter experiments	181
10.6. Yield variation and yield trends	184
10.7. Discussion	186
References	189

Part IV - Socio-economic effects

11. The invasive shrub <i>Piper aduncum</i> and rural livelihoods	
Abstract	195
11.1. Introduction	195
11.2. Study area	197
11.3. Field work and data collection	201
11.4. The use of <i>Piper aduncum</i>	201
11.5. Farm use	201
11.6. Household use	204
11.7. Other effects	206
11.8. Discussion	208
References	212

Summary and conclusions	217
Bibliography	223
Colour plates	225
